Mr. R. P. Masani	Joint Secretary.

To commence his duties on the termination of his appointment as Secretary to the Bombay Provincial Banking Enquiry Committee.

In the meantime, the sudden and much lamented death of Mr. B. F. Madon has created an unexpected vacancy in the Central Committee. The late Mr. Madon was one of the two members nominated in consultation with the Federation of Indian Chambers, and the Government of India have been informed that the Federation in communication with its constituent bodies is arranging to nominate another member to take his place. The resulting appointment will be announced in due course.

2. In accordance with the intention stated in the Press Communiqué, the terms of reference were considered by the Central Committee in consultation with the Hon'ble the Finance Member of the Governor General's Executive Council at its first meeting held in Bombay at the end of last month. The Government of India have now decided that the terms of reference to the Committee should be as follows :—

To investigate past records and existing conditions of banking in India including the organisation of the Money Market and to consider the steps, if any, that are feasible and desirable under the following main headings —

(a) the Development of Banking with a view to the expansion of indigenous, co-operative and joint stock banking with special reference to the needs of agriculture, commerce and industry;

(b) the Regulation of Banking with a view to protecting the interests of the public; and

(c) Banking Education with a view to the provision of Indian personnel in adequate numbers and with the necessary qualifications to meet the increasing needs of the country for a sound and well managed national system of banking.

3. At the same meeting the final allocation of the subjects covered by the Enquiry as between itself and the Provincial Committees was considered by the Central Committee in consultation with the Hon'ble the Finance Member. It was decided that the heads of enquiry entrusted to the Provincial Committees should be set out in the form of a standard questionnaire and that this questionnaire should be forwarded by the Government of India to the Provincial Governments with the request that it might be issued by the Provincial Committees after they had added any additional questions which they considered necessary for the purpose of eliciting information regarding special local or provincial features. The Government of India realise that it is inevitable that there should be some overlapping in any allocation of subjects between the Central and the Provincial Committees, but they hope that it will be possible for the Central and the Provincial Committees by mutual co-operation to get over any difficulties on account of such overlapping.

4. Five Provincial Committees have already been constituted and the Government of India hope that the remaining Provincial Committees will be set up in the course of this month and that all the Committees will begin regular work by the beginning of August and submit their reports by March 1930. It will be the duty of the Central Committee to examine the material contained in these reports besides investigating any heads of enquiry which are not specially referred to the Provincial Committees.

5. The Government of India contemplate that before making its recommendations to Government, the Central Committee should have the assistance of a small body of experts selected by Government either from England or from other countries possessing well developed systems of rural credit and industrial banking. It is the intention that these

experts should have joint discussions with the Central Committee and act as its advisers. The experts would be entitled to submit a separate report of their own, if necessary, to the Central Committee and in that case, the Central Committee should submit the report of the experts together with its own report to the Government of India.

No. 1289.—The Board of Commissioners for Hindu Religious Endowments has brought to the notice of Government that the temples of Sri Chennakesavaswami, Sri Yellamma Devatha, Sri Grama Devatha and Sri Hanumantharayaswami of Mayalur, Koilkuntla taluk, Kurnool district, the average annual income of each of which is below Rs. 250 and which are thus outside the scope of the Madras Hindu Religious Endowments Act, 1926 (Act II of 1927), are in a grossly neglected condition, that there is no trustee at present for the management of any of these temples and that services are not rendered in any of them except in Sri Grama Devatha temple. It is also reported that the temple of Sri Chennakesavaswami is in ruins and that the inam lands of the Yellamma Devatha temple which the pujari is said to claim by adverse possession have been alienated to strangers.

In these circumstances the Board has requested Government to extend to the temples in question all the provisions of the Hindu Religious Endowments Act, 1926 (Act II of 1927), except section 66 (1) relating to the levy of contributions by the Board, so that the District Temple Committee may take steps to appoint suitable trustees for their management and for necessary action to be taken for the redemption of the alienated inams. Before proceeding further in the matter Government desire to ascertain whether any worshipper at these temples has any objection to urge against the extension of the Act. If no valid objection is received by Government within a month from the date of the publication of the notification in the District Gazette, they will proceed to pass orders on the Board's recommendation.

COTTON CROP OF 1928-29—FIRST REPORT.

[On an average of the five years ending 1927-28, the area under cotton in the Madras Presidency has represented 9·3 per cent of the total area under cotton in India.]

The area under cotton up to the end of July 1929 is estimated at 234,000 acres as against 229,500 acres on the corresponding date of last year or an increase of about two per cent.

2. *Central districts and South mainly Cambodia tract.*—The area in the South and the Central districts does not relate to new sowings, but represents the last year's crop left on the ground for second pickings before it is removed in September in compliance with the provisions of the Pest Act. There has been an increase in area in these districts owing to seasonable hot weather rains. The yield of the second or summer pickings is expected to be generally normal.

3. *Deccan or Northern and Western tract.*—The area in the Deccan has fallen by more than 50 per cent. The largest reduction in area is in Bellary where the sowings of the *mungari* crop have not yet been completed for want of timely rains.

4. *Circars or Coconadas tract.*—In Guntur, the area has fallen by 50 per cent for want of rains.

5. Figures by districts are given in the statement below :—
